## **COVID-19 vaccines are safe and effective for children 5 and up**

Hear from parents, a pediatrician, an educator, and a superintendent. Vaccines are safe and effective for children 5 and up, and getting vaccinated will keep our schools safe and healthy for in-person learning.

---

## **Vaccine safety and side effects**

The no-cost COVID-19 vaccine is safe, effective, and lifesaving. Minor side effects for the primary series and booster shots are normal and a sign that your body is building immunity.

---

## Learn about the COVID-19 vaccine

What parents need to know about the vaccine for children

## How we know the COVID-19 vaccines are safe and effective

## Why vaccine side effects are normal and how to prepare
