## Direct Deposit

### The BEST way to receive your Pension Benefit

And here's why...

Direct deposit is *safe* because your benefit payment is automatically deposited into your bank account – no more worrying about lost or stolen checks or delays caused by mail service.

Direct deposit is *fast* because no matter if you are sick or away from home, your check is still deposited into your account. No more standing in long bank lines or waiting for your check to clear.

Direct deposit is *easy* because your benefit payment is deposited into your checking or savings account on time, correctly and confidentially.

Please take a few minutes and complete the form on the back so you can take advantage of the benefits of direct deposit. It will take the Fund Office about 45 days after it receives your authorization to setup the procedure with your bank. You will be notified by mail each month that your check is electronically deposited. Please be assured there will be no interruption in your monthly benefit and there is no cost to you.

### \*\*\*IMPORTANT\*\*\*

If you elect to begin direct deposit, please notify the Fund Office *immediately* whenever you change your address so that our records will be updated, and you will continue to receive your monthly direct deposit statement. If you do not receive your monthly statement, please notify the Fund office immediately to avoid interruption in your monthly benefit.
