The Trustees made it a priority to ensure that Wellmark's provider network is comparable to Cigna's, so you'll likely keep your current provider.

The Fund is committed to providing you and your family with quality medical care options. The change to Wellmark brings some important benefits, including:

- **A large, nationwide provider network** of board-certified doctors, specialists, and health care facilities
- **Digital tools**, such as the Wellmark app to schedule appointments, access medical claims, and more

## YOUR NEXT STEPS

- **If you're currently in treatment, you may qualify to continue seeing your provider for a limited time. Contact the administrative office for more details.**
- **Open Enrollment is October 20–31, 2025.** Review your plan options, consider your care needs for 2026, and update coverage as needed.
- Be on the lookout for your new Wellmark medical ID card around the end of December.
