

# Your eye safety is our first priority

As an EyeMed member, you have access to the IndustrialEyes Safety Eyewear Program to protect your eyes while at work. Simply visit one of the local retailers near you to select your safety eyewear, and we'll take care of the rest. Follow these simple steps to stay protected:

- 1** Visit any LensCrafters, Sears Optical or participating Pearle Vision location near you. Find your options using the form provided to you by your employer. Make sure to bring the safety eyewear form with you and submit it to the store associate.
- 2** Get a look at all the safety eyewear choices. Try some on for size and pick the right option for your needs.
- 3** Pay any applicable costs. You may owe zero out of pocket or have a small fee. Please refer to the form for any potential costs.
- 4** Pick up your safety glasses when they're ready and you're all set!

## See the EyeMed difference

Visit a provider near you to keep your eyes protected on the job.

The EyeMed logo is displayed in white text on a purple square background. The word "eye" is in a lowercase, sans-serif font, and "Med" is in a similar font but with a slightly different spacing and capitalization.
