Dear Member,

The Ohio Bricklayers Health and Welfare Fund values our members and therefore we continue to work toward solutions that will help you and your family, while ensuring the financial security of the Fund. As the cost of healthcare continues to rise, we want to be sure that you are getting the appropriate care and that you have help managing your conditions, whether it be an upcoming surgery or an ongoing condition.

Effective May 1, 2024, Conifer Health Solutions will be taking over Utilization Management and Case Management from HealthLink (via Anthem). The decision was made to move these services away from HealthLink to optimize the management of large claims and for improved value to our members who are facing significant health challenges.

Conifer will engage with Utilization Management Services including pre-certification, claim review and discharge planning. The team will work closely with your provider, and you, to be sure that proper guidelines are followed when you are seeking care.

If you are currently engaged in Case Management with HealthLink, call Conifer and they will step in to help you navigate your care. You may call (410) 919-0512 to speak with your Personal Health Nurse today. Or Conifer may reach out to you to see if they can help!

Conifer is a partner and an advocate for Fund participants and their families. Their goal is to help you get the best care, at the lowest cost, and to achieve the best outcomes.

Sincerely,

The Health & Welfare Board of Trustees

FIND A HEALTHIER YOU! Lead a healthier life with the support of a Personal Health Nurse.

Our Personal Health Nurses (PHNs) support Ohio Bricklayers Health and Welfare Fund Member's needs through an efficient and caring approach to Case Management that is available at no additional cost to you.

As an Ohio Bricklayers Health and Welfare Fund member, you may qualify for a PHN if you suffer from:

- Long-term health condition
- Short-term illness or injury
- Mental or behavioral health condition
- Health condition that puts you at risk for other health issues

Your PHN works directly with you and your physician to set goals, help you build healthy habits and ensure you receive the right care when you need it. If you or a dependent qualifies for Case Management through Conifer Health Solutions, your PHN may connect with you directly or you may contact them.
