NOTICE REGARDING CHANGES FOR THE PIPEFITTERS LOCAL 636 DEFINED CONTRIBUTION FUND

March 1, 2025

This Notice contains important information about the changes below to the Pipefitters Local 636 Defined Contribution Plan:

- **Investment Menu Changes**
 - Existing Fund Lineup Changes
 - Share Class Changes
 - Addition of New Funds / Asset Classes

Please review this notice carefully and in its entirety. Please keep this notice with your Summary Plan Description (SPD) for future reference.

EXISTING FUND LINEUP CHANGES

After a recent review of the options offered through the plan, a decision was made to make the following change to the Pipefitters Local 636 Defined Contribution Fund's investment menu effective April 1, 2025:

- Replace Vanguard Institutional Index with Fidelity 500 Index
- Replace Vanguard Mid Cap Index with Fidelity Mid Cap Index
- Replace Diamond Hill Large Cap with Putnam Large Cap Value Y
- Replace Artisan Small Cap with Invesco Discovery Y

Why is this change taking place?

The Fund's Investment Consultant tracks and monitors the mutual funds available in the Plan with regards to risk, return, consistency and overall due diligence. When looking at the current funds available, the consultant recommended replacing the above listed funds:

What if I am currently invested in any of the above listed funds?

If you have made an election to invest into the Vanguard Institutional Index, Vanguard Mid Cap Index, Diamond Hill Large Cap or Artisan Small Cap, the existing balances of your account invested in the fund will be transferred to the as outlined below:

<i>If, as of 2:00 p.m. Eastern Time on March 31, 2025, you are invested in:</i>	<i>On April 1, 2025, your balance and future contributions will be invested in:</i>
Vanguard Institutional Index	Fidelity 500 Index
Vanguard Mid Cap Index	Fidelity Mid Cap Index
Diamond Hill Large Cap	Putnam Large Cap Value Y
Artisan Small Cap	Invesco Discovery Y

If you do not want your balance or future contributions transferred as outlined above, you must make your investment change(s) prior to 2:00 p.m. Eastern Time on March 28, 2025, as you will be unable to initiate fund transfers or make investment election changes from 2:00 p.m. Eastern Time on March 28, 2025, until 9 a.m. April 1, 2025. Full access to your account will be restored on April 1, including the ability to make fund transfers and investment election changes.

What is the objective of the Fidelity 500 Index?

The Fidelity 500 Index Fund is a diversified domestic large-cap equity strategy that seeks to closely track the returns and characteristics of the S&P 500 Index. The S&P 500 is a market-capitalization-weighted index designed to measure the performance of 500 large-cap U.S. companies. The fund holds each constituent security at approximately the same weight as the index.

What is the objective of the Fidelity Mid Cap Index?

The Fidelity Mid Cap Index Fund is a diversified domestic mid-cap equity strategy that seeks to closely track the returns and characteristics of the Russell Midcap Index. The Russell Midcap Index is a market-capitalization-weighted index designed to measure the performance of the 800 smallest companies in the Russell 1000 Index. The fund aims to hold each constituent security at approximately the same weight as the index.

What is the objective of the Putnam Large Cap Value Fund?

The Putnam Large Cap Value Fund seeks capital growth and current income by investing mainly in common stocks of U.S. companies, with a focus on value stocks that offer the potential for capital growth, current income, or both. The fund focuses on future cash flows and puts distinct emphasis on companies that can grow their dividends and are able and willing to return cash to shareholders. The fund benchmarks itself against the Russell 1000 Value Index.

What is the objective of the Invesco Discovery Fund?

The Invesco Discovery Fund seeks capital appreciation. The funds typically will invest in small-cap U.S. growth companies that they believe are industry leaders and pioneers with high-quality management teams. The fund benchmarks itself against the Russell 2000 Growth Index.

Below please find a chart containing historical performance data for the new funds being added:

Historical Performance Chart ¹						
	Average Annual Total Return as of 12/31/2024			Benchmark – S&P 500 Index		
	1 Yr	5 Yr	10 Yr	1 Yr	5 Yr	10 Yr
Fidelity 500 Index	25.00%	14.51%	13.09%	25.02%	14.53%	13.10%
	Average Annual Total Return as of 12/31/2024			Benchmark – Russell Midcap Index		
	1 Yr	5 Yr	10 Yr	1 Yr	5 Yr	10 Yr
Fidelity Mid Cap Index	15.35%	9.93%	9.63%	15.34%	9.92%	9.63%
	Average Annual Total Return as of 12/31/2024			Benchmark – Russell 1000 Value Index		
	1 Yr	5 Yr	10 Yr	1 Yr	5 Yr	10 Yr
Putnam Large Cap Value Y	19.34%	12.59%	11.03%	14.37%	8.68%	8.49%
	Average Annual Total Return as of 12/31/2024			Benchmark – Russell 2000 Growth Index		
	1 Yr	5 Yr	10 Yr	1 Yr	5 Yr	10 Yr
Invesco Discovery Y	22.99%	11.74%	12.40%	15.15%	6.86%	8.09%

¹ The performance data shown represents past performance, which does not guarantee future results. Current performance may be higher or lower than what is stated and your investment in these options could lose money. To obtain the most recent month-end performance information, as well as additional information about any investment option, please login to www.accountplanaccess.net/benesys/ and click on the investment performance link on the menu.

What are the costs associated with the new funds being offered?

Annualized operating expense & revenue credits for the funds will be:

<u>Fund Name</u>	<u>Ticker</u>	<u>Expense Ratio</u>	<u>Revenue Credit</u>	<u>Net Investment Fee</u>
Fidelity 500 Index	FXAIX	0.015%	0.00%	0.015%
Fidelity Mid Cap Index	FSMDX	0.025%	0.00%	0.025%
Putnam Large Cap Value Y	PEIYX	0.65%	0.25%	0.40%
Invesco Discovery Y	ODIYX	0.72%	0.25%	0.47%

SHARE CLASS CHANGES

After a recent review of the options offered through the plan, a decision was made to make the following change to the Pipefitters Local 636 Defined Contribution Fund's investment menu effective April 1, 2025:

- Replace Loomis Sayles Core Plus Bond N with Loomis Sayles Core Plus Bond Y
- Replace American Century Small Cap Value Inv with American Century Small Cap Value R6

Why is this change taking place?

The Fund's Investment Consultant tracks and monitors the mutual funds available in the Plan with regards to overall cost structure within the funds. We were able to make various fund changes within the lineup to lower the Gross and/or Net expense ratio of the funds available. The portfolio managers, construction of portfolio or overall management of the funds will not change between the different share classes.

What are the costs associated with the new funds being offered?

Annualized operating expense & revenue credit comparisons for the funds are:

<u>Fund Name</u>	<u>Ticker</u>	<u>Expense Ratio</u>	<u>Revenue Credit</u>	<u>Net Investment Fee</u>
Loomis Sayles Core Plus N	NERNX	0.39%	0.00%	0.39% Current
Loomis Sayles Core Plus Y	NERYX	0.49%	0.20%	0.29% New

<u>Fund Name</u>	<u>Ticker</u>	<u>Expense Ratio</u>	<u>Revenue Credit</u>	<u>Net Investment Fee</u>
Amer Century SCV Adv	ASVIX	1.09%	0.35%	0.74% Current
Amer Century SCV R6	ASVDX	0.74%	0.00%	0.74% New

NEW ASSET CLASS ADDITIONS

After a recent review of the options offered through the plan, a decision was made to make the following add the following funds to the Pipefitters Local 636 Defined Contribution Fund's investment menu effective April 1, 2025:

- Addition of Fidelity Small Cap Index
- Addition of Fidelity International Index
- Addition of T. Rowe Price Mid Cap Value
- Addition of Federated Hermes MDT Mid Cap Growth IS

What is the objective of the Fidelity Small Cap Index?

The Fidelity Small Cap Index Fund is a diversified domestic small-cap equity strategy that seeks to closely track the returns and characteristics of the Russell 2000 Index. The Russell 2000 Index is a market-capitalization-weighted index designed to measure the performance of the smallest 2000 companies in the Russell 3000 Index.

What is the objective of the Fidelity International Index?

The Fidelity International Index Fund is a diversified international equity strategy that seeks to closely track the returns and characteristics of the MSCI EAFE Index. The MSCI EAFE Index is a market-capitalization-weighted index that includes large/mid cap firms in 21 developed-markets countries, excluding the U.S. and Canada.

What is the objective of the T. Rowe Price Mid Cap Value Fund?

The T. Rowe Price Mid Cap Value Fund seeks to provide long-term capital appreciation by investing primarily in mid-sized companies that appear to be undervalued. The fund will normally invest at least 80% of its net assets in companies whose market capitalization falls within the range of companies in the S&P MidCap 400 Index or the Russell Midcap Value Index. The fund focuses on companies with attractive operating margins, sound balance sheet and financial manager, as well as stock ownership by management.

What is the objective of the Federated Hermes MDT Mid Cap Growth Fund?

The Federated Hermes MDT Mid Cap Growth Fund pursues capital appreciation and invests primarily in growth-oriented mid-cap U.S. companies. The fund selects stocks through a bottom up, quantitatively driven process. The fund also seeks to remove subjective and emotional influences from security selection and capitalize on market inefficiencies.

Historical Performance Chart ²

Fidelity Mid Cap Index	FSMDX	0.025%	0.00%	0.025%
Fidelity International Index	FSPSX	0.035%	0.00%	0.035%
T. Rowe Price MCV	TRMCX	0.85%	0.15%	0.70%
Federated Mid Cap Growth	FGSIX	0.85%	0.35%	0.50%

If you have any questions about these changes, or any investment matter relating to the Fund, please call the Plan's Investment Consultant, Jason May of Merrill Lynch, at 248-540-2091.

² The performance data shown represents past performance, which does not guarantee future results. Current performance may be higher or lower than what is stated and your investment in these options could lose money. To obtain the most recent month-end performance information, as well as additional information about any investment option, please login to www.accountplanaccess.net/benesys/ and click on the investment performance link on the menu.

For other questions about the Fund, please contact the Fund Office at 1-866-646-8919. You can also find additional information at www.accountplanaccess.net/Benesys, or call 888-646-8920. Beginning November 1, 2023, the information available by phone or online includes:

- A description of the annual operating expenses of each investment alternative (e.g., investment management fees, administrative fees, transaction costs) and the aggregate amount of such expenses expressed as a percentage of average net assets;
- Copies of any prospectuses or financial statements and of any other materials relating to investment alternatives that are available; and
- Information about the value of shares or units in the investment alternatives, including past and current investment performance, determined net of expenses.

You may obtain, free of charge, a paper copy of your fee disclosure notice and other investment information posted at www.accountplanaccess.net/benesys/.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for an example showing the long-term effect of fees and expenses at <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/resource-center/publications/understanding-your-retirement-plan-fees>.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's Web site for an example showing the long-term effect of fees and expenses at <https://www.dol.gov/sites/dolgov/files/EBSA/about-ebsa/our-activities/resource-center/publications/understanding-retirement-plan-fees-and-expenses.pdf>. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.

PIPEFITTERS LOCAL 636 DEFINED CONTRIBUTION PLAN
Investment Comparative Chart As Of 01/31/2025

Investment Restrictions

In addition to any restrictions imposed by the plan, the following restrictions are imposed by the plan investment alternative.

American Century Small Cap R6

A round trip is defined as a buy and sell that occur within 7 days. Maximum of 1 round trip allowed per 1 year period. American Century Investments uses a variety of techniques to monitor for and detect frequent trading practices. These techniques may vary depending on the type of fund, the class of shares or whether the shares are held directly or indirectly with American Century Investments. They may change from time to time as determined by American Century Investments in its sole discretion. To minimize harm to the funds and their shareholders, we reserve the right to reject any purchase order (including exchanges) from any shareholder we believe has a history of frequent trading or whose trading, in our judgment, has been or may be disruptive to the funds. In making this judgment, we may consider trading done in multiple accounts under common ownership or control. Currently, for shares held directly with American Century Investments, we may deem the sale of all or a substantial portion of a shareholder's purchase of fund shares to be frequent trading if the sale is made: within seven days of the purchase, or within 30 days of the purchase, if it happens more than once per year. To the extent practicable, we try to use the same approach for defining frequent trading for shares held through financial intermediaries. American Century Investments reserves the right, in its sole discretion, to identify other trading practices as abusive and to modify its monitoring and other practices as necessary to deal with novel or unique abusive trading practices.

Diamond Hill Large Cap Fund A

Market timing or excessive trading may result in dilution of the value of fund shares held by long-term shareholders, disrupt portfolio management, and increase fund expenses for all shareholders. The funds will take reasonable steps to discourage excessive short-term trading and the funds' Board of Trustees has adopted the following policies and procedures with respect to market timing. The funds will monitor selected trades on a daily basis in an effort to detect excessive short-term trading. If a fund has reason to believe that a shareholder has engaged in excessive short-term trading, the fund may ask the shareholder to stop such activities or refuse to process purchases or exchanges in the shareholder's accounts. In addition to rejecting purchase orders in connection with suspected market timing activities, a fund can reject a purchase order for any reason. While the funds cannot assure the prevention of all excessive trading and market timing, by making these judgments the funds believe they are acting in a manner that is in the best interests of shareholders.

Federated Hermes MDT Mid Cap Gr

A round trip is defined as a buy and sell that occur within 30 days. Maximum of 2 round trips allowed per 12 month period. The Fund's Board has approved policies and procedures intended to discourage excessive frequent or short-term trading of the Fund's Shares. As described above, the Fund imposes a fee on redemptions or exchanges of Fund Shares within 90 days of the date of purchase. See "What Do Shares Cost?" The Fund's fair valuation procedures are intended in part to discourage short-term trading strategies by reducing the potential for these strategies to succeed. See "What Do Shares Cost?" The Fund also monitors trading in Fund Shares in an effort to identify disruptive trading activity. The Fund monitors trades into and out of the Fund within a period of 30 days or less. The Fund may also monitor trades into and out of the Fund for potentially disruptive trading activity over periods longer than 30 days. The size of Share transactions subject to monitoring varies. Where it is determined that a shareholder has exceeded the detection amounts twice within a period of 12 months, the Fund will temporarily prohibit the shareholder from making further purchases or exchanges of Fund Shares.

Fidelity 500 Index Fund

A round trip is defined as a buy and sell that occur within 30 days. Excessive trading violation will result in a trading restriction period of 85 days. Maximum of 3 round trips allowed per 12 month period. The Board of Trustees has adopted policies designed to discourage excessive trading of fund shares. Excessive trading activity in a fund is measured by the number of roundtrip transactions in a shareholder's account and each class of a multiple class fund is treated separately. A roundtrip transaction occurs when a shareholder sells fund shares (including exchanges) within 30 days of the purchase date. Shareholders with two or more roundtrip transactions in a single fund within a rolling 90-day period will be blocked from making additional purchases or exchange purchases of the fund for 85 days. Shareholders with four or more roundtrip transactions across all Fidelity® funds within any rolling 12-month period will be blocked for at least 85 days from additional purchases or exchange purchases across all Fidelity® funds. Any roundtrip within 12 months of the expiration of a multi-fund block will initiate another multi-fund block. Repeat offenders may be subject to long-term or permanent blocks on purchase or exchange purchase transactions in any account under the shareholder's control at any time. In addition to enforcing these roundtrip limitations, the fund may in its discretion restrict, reject, or cancel any purchases or exchanges that, in the Adviser's opinion, may be disruptive to the management of the fund or otherwise not be in the fund's interests.

Harbor International

A round trip is defined as a buy and sell that occur within 30 days. Excessive trading violation will result in a trading restriction period of 60 days. Maximum of 4 round trips allowed per 12 month period. The Board of Trustees has adopted policies and procedures and authorized Harbor Funds to take the following actions to discourage excessive short-term trading activity in the Funds. You may make up to four round trips in the same Fund in a 12-month period. A "round trip" is a purchase into a Fund followed by a redemption out of the same Fund (including by exchange) or a redemption out of a Fund (including by exchange) followed by a purchase into the same Fund within a 30-day period. When a purchase or redemption transaction is paired with another transaction to make one round trip, neither of those transactions is paired with a third transaction to make a second round trip. For example, if a shareholder purchases shares of a Fund on May 1, redeems those same shares on May 15 and then purchases shares in the same Fund again on June 5, the shareholder would have engaged in one round trip. The purchase on May 1 would be paired with the redemption on May 15 because the transactions occurred within a 30-day period. However, the redemption on May 15 would not be paired with the purchase on June 5 to create a second round trip because the May 15 redemption already constituted part of the earlier round trip. Different restrictions may apply if you invest through an intermediary. Harbor Funds will limit, for a period of 60 days, future purchases into a Fund by any investor who makes more than four round trips in the same Fund in a 12-month period.

Invesco Discovery Y

Invesco and certain of its corporate affiliates (Invesco and such affiliates, collectively, the Invesco Affiliates) currently use the following tools designed to discourage excessive short-term trading in the retail Funds: Trade activity monitoring; Discretion to reject orders; Purchase blocking; The use of fair value pricing consistent with procedures approved by the Board. The Funds (except those listed have adopted a policy under which any shareholder redeeming shares having a value of \$5,000 or more from a Fund on any trading day will be precluded from investing in that Fund for 30 calendar days after the redemption transaction date. The policy applies to redemptions and purchases that are part of exchange transactions. Under the purchase blocking policy, certain purchases will not be prevented and certain redemptions will not trigger a purchase block, such as: purchases and redemptions of shares having a value of less than \$5,000; systematic purchase, redemption and exchange account options; transfers of shares within the same Fund; non-discretionary rebalancing in fund-of-funds; asset allocation features; fee-based accounts; account maintenance fees; small balance account fees; plan-level omnibus Retirement and Benefit Plans; death and disability and hardship distributions; loan transactions; transfers of assets; Retirement and Benefit Plan rollovers; IRA conversions and re-characterizations; and mandatory distributions from Retirement and Benefit Plans.

Loomis Sayles Core Plus Bond Y

Excessive trading violation will result in a trading restriction period of 90 days. Maximum of 1 round trip allowed per 90 days period. Excessive trading activity in a Fund is measured by the number of round trip transactions in a shareholder's account. A round trip is defined as (1) a purchase (including a purchase by exchange) into a Fund followed by a redemption (including a redemption by exchange) of any amount out of the same Fund; or (2) a redemption (including a redemption by exchange) out of a Fund followed by a purchase (including a purchase by exchange) of any amount into the same Fund. Two round trip transactions in a single Fund within a rolling 90-day period is considered to be excessive and will constitute a violation of the Fund's trading limitations. After the detection of a first violation, the Fund or the Distributor will issue the shareholder and/or his or her financial intermediary, if any, a written warning. After the detection of a second violation (i.e., two more round trip transactions in the Fund within a rolling 90-day period), the Fund or the Distributor will restrict the account from making subsequent purchases (including purchases by exchange) for 90 days. After the detection of a third violation, the Fund or the Distributor will permanently restrict the account and any other accounts under the shareholder's control in any Loomis Sayles Fund from making subsequent purchases (including purchases by exchange). The above limits are applicable whether a shareholder holds shares directly with a Fund or indirectly through a financial intermediary, such as a broker, bank, investment adviser, recordkeeper for retirement plan participants, or other third party. The preceding is not an exclusive description of activities that a Fund and the Distributor may consider to be excessive and, at its discretion, a Fund and the Distributor may restrict or prohibit transactions by such identified shareholders or intermediaries.

MFSC Institutional Internat'l Equity Fund

Maximum of 2 round trips allowed per 3 month period. The fund is not intended to serve as a vehicle for frequent trading. The Board of Trustees of the fund has adopted the purchase and exchange limitation policy described below, which it believes is reasonably designed to discourage frequent fund share transactions. MFSC seeks to monitor and enforce this policy, subject to oversight by the Board of Trustees. The fund may alter its policies at any time without notice to shareholders. MFSC will generally restrict, reject or cancel purchase and exchange orders into the fund if MFSC determines that an account holder has made two

Pipefitters, Refrigeration & Air Conditioning Svc Local 636
PIPEFITTERS LOCAL 636 DEFINED CONTRIBUTION PLAN
Investment Comparative Chart As Of 01/31/2025

exchanges, each in an amount of \$15,000 or more, out of an account in the fund during a calendar quarter ("two exchange limit"). This policy does not apply to MFS money market funds or to exchanges initiated by a retirement plan trustee or sponsor rather than by a plan participant, and other similar non-discretionary exchanges (e.g., in connection with fund mergers/acquisitions/liquidations). MFSC may make exceptions to this policy if, in its judgment, the transaction does not represent frequent trading activity, such as purchases made through systematic purchase plans (but not systematic exchange plans), payroll contributions, or distribution investment programs. In applying this policy, MFSC considers the information available to it at the time and reserves the right to consider trading effected through multiple accounts that are under common ownership, control, or influence to be trading out of a single account.

Putnam Large Cap Value Class Y

The Fund's board of trustees has adopted the following policies and procedures with respect to frequent trading in Fund shares (Frequent Trading Policy). The Fund does not intend to accommodate short-term or frequent purchases and redemptions of Fund shares that may be detrimental to the Fund. For example, this type of trading activity could interfere with the efficient management of the Fund's portfolio or materially increase the Fund's transaction costs, administrative costs or taxes. Through its transfer agent, the Fund performs ongoing monitoring of shareholder trading in shares of the Fund and other Franklin Templeton funds in order to try and identify shareholder trading patterns that suggest an ongoing short-term trading strategy. If shareholder trading patterns identified by the transfer agent through monitoring or from other information regarding the shareholder's trading activity in non-Franklin Templeton funds leads the transfer agent to reasonably conclude that such trading may be detrimental to the Fund as described in this Frequent Trading Policy, the transfer agent, on behalf of the Fund, may temporarily or permanently bar future purchases into the Fund or, alternatively, may limit the amount, number or frequency of any future purchases and/or the method by which you may request future purchases and redemptions (including purchases and/or redemptions by an exchange or transfer between the Fund and any other mutual fund). In considering an investor's trading patterns, the Fund may consider, among other factors, the investor's trading history both directly and, if known, through financial intermediaries, in the Fund, in other Franklin Templeton funds, in non-Franklin Templeton mutual funds, or in accounts under common control or ownership (see, for example, "Buying and Selling Shares - Investment by asset allocators and large shareholders" in the SAI). The transfer agent may also reject any purchase or redemption request, whether or not it represents part of any ongoing trading pattern, if the Fund's investment manager or transfer agent reasonably concludes that the amount of the requested transaction may disrupt or otherwise interfere with the efficient management of the Fund's portfolio. In determining what actions should be taken, the Fund's transfer agent may consider a variety of factors, including the potential impact of such remedial actions on the Fund and its shareholders. If the Fund is a "fund of funds," the Fund's transfer agent may take into account the impact of the trading activity and of any proposed remedial action on both the Fund and the underlying funds in which the Fund invests.

T. Rowe Price Mid-Cap Value

Excessive transactions and short-term trading can be harmful to fund shareholders in various ways, such as disrupting a fund's portfolio management strategies, increasing a fund's trading and other costs, and negatively affecting its performance. Short-term traders in funds that invest in foreign securities may seek to take advantage of developments overseas that could lead to an anticipated difference between the price of the funds' shares and price movements in foreign markets. While there is no assurance that T. Rowe Price can prevent all excessive and short-term trading, the Boards of the T. Rowe Price Funds have adopted the following trading limits that are designed to deter such activity and protect the funds' shareholders. The funds may revise their trading limits and procedures at any time as the Boards deem necessary or appropriate to better detect short-term trading that may adversely affect the funds, to comply with applicable regulatory requirements, or to impose additional or alternative restrictions. Subject to certain exceptions, each T. Rowe Price Fund restricts a shareholder's purchases (including through exchanges) into a fund account for a period of 30 calendar days after the shareholder has redeemed or exchanged out of that same fund account (the "30-Day Purchase Block"). The calendar day after the date of redemption is considered Day 1 for purposes of computing the period before another purchase may be made.
