

EnvisionRxOptions

pharmaceutical services Incorporated

October 30, 2006

Dear Roofers Local 149 Participant,

Envision/Rx Options is pleased to announce a new program to assist Roofers' participants in obtaining their 90-day supply of medications.

We realize that some members have had problems as a result of our change to a new mail order prescription vendor, Costco Mail Order. Please keep in mind that this change was made to benefit the members and help keep costs down due to ever-increasing pharmaceutical prices. We are striving to correct any problems that have arisen as a result of this change. We encourage you to contact us with any problems that you may have so that we can address them as soon as possible. Members can reach Envision/Rx Options helpdesk toll-free at 1-800-361-4542.

Effective immediately, all Roofers' participants will be able to obtain a 90 day supply at any Costco Warehouse locations that has a pharmacy within the facility.

Please review the following important information regarding this special program below.

- Costco Warehouse pharmacies will charge the member the appropriate mail order co-pay for their 90 day supply.
- The new Costco Warehouse pharmacy program is available for all maintenance medications.
- Costco membership is not required.
- **If you have filled the prescription previously at the Costco Mail Order pharmacy, the local Costco pharmacy can complete a store-to-store transfer and fill the prescription. Please bring your prescription bottle to the Costco retail pharmacy to start this process.** Although Costco can complete a store-to-store transfer, it would be to your benefit to determine whether going to your local Costco Warehouse pharmacy or using the Costco Mail Order fits your needs best.
- If you have never filled the prescription at a Costco facility, please bring a new 90 day prescription with you to the pharmacy.
- **If you are a member of Costco Warehouse, you may pay by cash, check, or American Express credit card. If you are NOT a member of Costco Warehouse, Costco requests that members pay by cash or American Express credit card for their prescription(s) – checks are not accepted.** You may call Envision/Rx Options at 1-800-361-4542 to find out what your co-pay will be before going to a Costco Warehouse pharmacy.

If you have any questions regarding the enhanced 90 day mail order prescription drug program, please call the Envision/Rx Options helpdesk at 1-800-361-4542.

Sincerely,

Envision/Rx Options, Inc.
