Date: November 12, 2019

RE: New Plan Benefit - CPAP Cleaning Machines

The Board of Trustees of the Sheet Metal Workers' Local Union No. 80 Insurance Fund, after careful consideration, has decided to make the following benefit improvement to the Plan.

Effective August 1, 2019, if you or a covered dependent purchased and/or purchases a CPAP Cleaning Machine, and pays for such machine out of pocket, the Fund will reimburse the following:

- CPAP Cleaning Machine purchases will be reimbursed up to \$260, once every 5 years.

You or your covered dependent must currently be using a CPAP device. You must provide the following to be reimbursed for the purchase of a CPAP Cleaning Machine.

- A prescription for the CPAP device.
- A copy of the receipt for the purchase of the cleaning machine.

Please note that the Fund will NOT be responsible for warranties, repairs, or any other issues regarding the machine. It will be your responsibility to deal with any such issues.

Also, please be aware that the purchase of a CPAP cleaning machine will not be applicable to In-network or Out-of-Network deductibles or co-insurance. However, the purchase of any and all other supplies in connection with CPAP devices and CPAP cleaning machines will continue to be paid under your insurance coverage.

Following the purchase of the cleaning machine, you must submit all applicable documentation noted above to the Fund Office for reimbursement at the following address:
