RE: Changes to Dental Benefits - Added Coverage for Dental Crowns

1. Effective June 1, 2020, the Board of Trustees has improved the Dental Benefits provided under the Summary Plan Description by now covering dental crowns that are required due to reasons other than tooth decay and traumatic injury, such as grinding of teeth. Previously, dental crowns were only covered under the Summary Plan Description if they were required by traumatic injury or tooth decay.

If you have any questions as to how this benefit improvement may impact you or your eligible dependents, please contact the Fund Offices at (877) 908-9996.
