WAIVER OF 30-DAY NOTICE REQUIREMENT: Additionally, I acknowledge that I have been informed that federal law prohibits the Fund from paying benefits to me until at least 30 days after my spouse and I have received a written explanation of the 50% Joint and Survivor form, including my right to waive that form with the written consent of my spouse, the effect of such a waiver and the right my spouse and I each have to revoke that waiver and consent. I have also been informed that I may waive that 30 day notice period and instead elect a 7 day notice period, which will permit the Fund to commence payment of benefits to me no less than 7 days after my spouse and I received the written explanation, provided my spouse also consents in writing to waiver of the 30 day notice period. I elect to waive the 30 day notice period.

PLAN DISTRIBUTION ROLLOVER NOTICE (For payments *not* from a designated Roth account)

YOUR ROLLOVER OPTIONS

You are receiving this notice because all or a portion of a payment you are receiving from the U.A. Local No. 393 Defined Contribution Plan (the “Plan”) is eligible to be rolled over to an IRA or an employer plan. This notice is intended to help you decide whether to do such a rollover.

This notice describes the rollover rules that apply to payments from the Plan that are not from a designated Roth account (a type of account in some employer plans that is subject to special tax rules). If you also receive a payment from a designated Roth account in the Plan, you will be provided a different notice for that payment, and the Plan administrator or the payor will tell you the amount that is being paid from each account.

Rules that apply to most payments from a plan are described in the “General Information About Rollovers” section. Special rules that only apply in certain circumstances are described in the “Special Rules and Options” section.

GENERAL INFORMATION ABOUT ROLLOVERS

How can a rollover affect my taxes?

You will be taxed on a payment from the Plan if you do not roll it over. If you are under age 59½ and do not do a rollover, you will also have to pay a 10% additional income tax on early distributions (generally, distributions made before age 59½), unless an exception applies. However, if you do a rollover, you will not have to pay tax until you receive payments later and the 10% additional income tax will not apply if those payments are made after you are age 59½ (or if an exception to the 10% additional income tax applies).

What types of retirement accounts and plans may accept my rollover?

You may roll over the payment to either an IRA (an individual retirement account or individual retirement annuity) or an employer plan (a tax-qualified plan, section 403(b) plan, or governmental section 457(b) plan) that will accept the rollover. The rules of the IRA or employer plan that holds the rollover will determine your investment options, fees, and rights to payment from the IRA or employer plan (for example, IRAs are not subject to spousal consent rules, and IRAs may not provide loans). Further, the amount rolled over will become subject to the tax rules that apply to the IRA or employer plan.

How do I do a rollover?

There are two ways to do a rollover. You can do either a direct rollover or a 60-day rollover.

If you do a direct rollover, the Plan will make the payment directly to your IRA or an employer plan. You should contact the IRA sponsor or the administrator of the employer plan for information on how to do a direct rollover.

If you do not do a direct rollover, you may still do a rollover by making a deposit into an IRA or eligible employer plan that will accept it. Generally, you will have 60 days after you receive the payment to make the deposit. If you do not do a direct rollover, the Plan is required to withhold 20% of the payment for federal income taxes (up to the amount of cash and property received other than employer stock). This means that, to roll over the entire payment in a 60-day rollover, you must use other funds to make up for the 20% withheld. If you do not roll over the entire amount of the payment, the portion not rolled over will be taxed and will be subject to the 10% additional income tax on early distributions if you are under age 59½ (unless an exception applies).

How much may I roll over?

If you wish to do a rollover, you may roll over all or part of the amount eligible for rollover. Any payment from the Plan is eligible for rollover, except:

- Certain payments spread over a period of at least 10 years or over your life or life expectancy (or the joint lives or joint life expectancies of you and your beneficiary);
- Required minimum distributions after age 70½ (if you were born before July 1, 1949), after age 72 (if you were born after June 30, 1949, and before January 1, 1951), after age 73 (if you were born after December 31, 1950), or after death;
- Hardship distributions;

- Payments of employee stock ownership plan (ESOP) dividends;
- Corrective distributions of contributions that exceed tax law limitations;
- Loans treated as deemed distributions (for example, loans in default due to missed payments before your employment ends);
- Cost of life insurance paid by the Plan;
- Payments of certain automatic enrollment contributions that you request to withdraw within 90 days of your first contribution;
- Amounts treated as distributed because of a prohibited allocation of S corporation stock under an ESOP (also, there generally will be adverse tax consequences if you roll over a distribution of S corporation stock to an IRA); and
- Distributions of certain premiums for health and accident insurance.

The Plan administrator or the payor can tell you what portion of a payment is eligible for rollover.

If I don't do a rollover, will I have to pay the 10% additional income tax on early distributions?

If you are under age 59½, you will have to pay the 10% additional income tax on early distributions for any payment from the Plan (including amounts withheld for income tax) that you do not roll over, unless one of the exceptions listed below applies. This tax applies to the part of the distribution that you must include in income and is in addition to the regular income tax on the payment not rolled over.

The 10% additional income tax does not apply to the following payments from the Plan:

- Payments made after you separate from service if you will be at least age 55 in the year of the separation;
- Payments that start after you separate from service if paid at least annually in equal or close to equal amounts over your life or life expectancy (or the joint lives or joint life expectancies of you and your beneficiary);
- Payments from a governmental plan made after you separate from service if you are a qualified public safety employee and you (1) will be at least age 50 in the year of the separation or (2) have at least 25 years of service under the Plan, whichever is earlier;
- Payments from a tax-qualified plan or section 403(b) plan made after you separate from service if you are an employee who provides firefighting services and you (1) will be at least age 50 in the year of the separation or (2) have at least 25 years of service under the Plan, whichever is earlier;
- Payments made due to disability;
- Payments made while you are terminally ill;
- Payments after your death;
- Payments of ESOP dividends;
- Corrective distributions of contributions that exceed tax law limitations;
- Cost of life insurance paid by the Plan;
- Payments made directly to the government to satisfy a federal tax levy;
- Payments made under a qualified domestic relations order (QDRO);
- Payments of up to \$5,000 made to you from a defined contribution plan if the payment is a qualified birth or adoption distribution;
- Payments up to the amount of your deductible medical expenses (without regard to whether you itemize deductions for the taxable year);
- Certain payments made while you are on active duty if you were a member of a reserve component called to duty after September 11, 2001, for more than 179 days;
- Payments of certain automatic enrollment contributions that you request to withdraw within 90 days of your first contribution;
- Payments of up to \$22,000 made in connection with federally-declared disasters; and
- Phased retirement payments made to federal employees.

If I do a rollover to an IRA, will the 10% additional income tax apply to early distributions from the IRA?

If you receive a payment from an IRA when you are under age 59½, you will have to pay the 10% additional income tax on early distributions on the part of the distribution that you must include in income, unless an exception applies. In general, the exceptions to the 10% additional income tax for early distributions from an IRA are the same as the exceptions listed above for early distributions from a plan. However, there are a few differences for payments from an IRA, including:

- The exceptions for payments made after you separate from service if you will be at least age 55 in the year of the separation (or age 50 or following 25 years of service, whichever is earlier, for qualified public safety employees and employees providing firefighting services) do not apply;
- The exception for qualified domestic relations orders (QDROs) does not apply (although a special rule applies under which, as part of a divorce or separation agreement, a tax- free transfer may be made directly to an IRA of a spouse or former spouse); and
- The exception for payments made at least annually in equal or close to equal amounts over a specified period applies without regard to whether you have had a separation from service.

Additional exceptions apply for payments from an IRA, including:

- Payments for qualified higher education expenses;
- Payments up to \$10,000 used in a qualified first-time home purchase;
- Payments for health insurance premiums after you have received unemployment compensation for 12 consecutive weeks (or would have been eligible to receive unemployment compensation but for self-employed status); and
- Payments of net income attributable to an excess IRA contribution made in a calendar year where such amounts are distributed by tax return deadline for the year (including extensions) and no deduction is allowed for the excess contribution.

Will I owe State income taxes?

This notice does not address any State or local income tax rules (including withholding rules).

SPECIAL RULES AND OPTIONS

If you miss the 60-day rollover deadline

Generally, the 60-day rollover deadline cannot be extended. However, the IRS has the limited authority to waive the deadline under certain extraordinary circumstances, such as when external events prevented you from completing the rollover by the 60-day rollover deadline. Under certain circumstances, you may claim eligibility for a waiver of the 60-day rollover deadline by making a written self-certification. Otherwise, to apply for a waiver from the IRS, you must file a private letter ruling request with the IRS. Private letter ruling requests require the payment of a nonrefundable user fee. For more information, see IRS Publication 590-A, Contributions to Individual Retirement Arrangements (IRAs).

If you have an outstanding loan that is being offset

If you have an outstanding loan from the Plan, your Plan benefit may be offset by the outstanding

amount of the loan, typically when your employment ends. The offset amount is treated as a distribution to you at the time of the offset. Generally, you may roll over all or any portion of the offset amount. Any offset amount that is not rolled over will be taxed (including the 10% additional income tax on early distributions, unless an exception applies). You may roll over offset amounts to an IRA or an employer plan (if the terms of the employer plan permit the plan to receive plan loan offset rollovers).

How long you have to complete the rollover depends on what kind of plan loan offset you have. If you have a qualified plan loan offset, you will have until your tax return due date (including extensions) for the tax year during which the offset occurs to complete your rollover. A qualified plan loan offset occurs when a plan loan in good standing is offset because your employer plan terminates, or because you sever from employment. If your plan loan offset occurs for any other reason (such as a failure to make level loan repayments that results in a deemed distribution), then you have 60 days from the date the offset occurs to complete your rollover.

If you were born on or before January 1, 1936

If you were born on or before January 1, 1936 and receive a lump sum distribution that you do not roll over, special rules for calculating the amount of the tax on the payment might apply to you. For more information, see IRS Publication 575, *Pension and Annuity Income*.

If you roll over your payment to a Roth IRA

If you roll over a payment from the Plan to a Roth IRA, a special rule applies under which the amount of the payment rolled over (reduced by any after-tax amounts) will be taxed. In general, the 10% additional income tax on early

distributions will not apply. However, if you take the amount rolled over out of the Roth IRA within the 5-year period that begins on January 1 of the year of the rollover, the 10% additional income tax will apply (unless an exception applies).

If you roll over the payment to a Roth IRA, later payments from the Roth IRA that are qualified distributions will not be taxed (including earnings after the rollover). A qualified distribution from a Roth IRA is a payment made after you are age 59½ (or after your death or disability, or as a qualified first-time homebuyer distribution of up to \$10,000) and after you have had a Roth IRA for at least 5 years. In applying this 5-year rule, you count from January 1 of the year for which your first contribution was made to a Roth IRA. Payments from the Roth IRA that are not qualified distributions will be taxed to the extent of earnings after the rollover, including the 10% additional income tax on early distributions (unless an exception applies). You do not have to take required minimum distributions from a Roth IRA during your lifetime. For more information, see IRS Publication 590-A, *Contributions to Individual Retirement Arrangements (IRAs)*, and IRS Publication 590-B, *Distributions from Individual Retirement Arrangements (IRAs)*.

If you were born on or before January 1, 1936

If you were born on or before January 1, 1936, and receive a lump sum distribution that you do not roll over, special rules for calculating the amount of the tax on the payment might apply to you. For more information, see IRS Publication 575, *Pension and Annuity Income*.

If you are an eligible retired public safety officer and your payment is used to pay for health coverage or qualified long-term care insurance

If the Plan is a governmental plan, you retired as a public safety officer, and your retirement was by reason of disability or was after normal retirement age, you can exclude from your taxable income Plan payments paid as premiums to an accident or health plan (or a qualified long-term care insurance contract) that your employer maintains for you, your spouse, or your dependents, up to a maximum of \$3,000 annually. For this purpose, a public safety officer is a law enforcement officer, firefighter, chaplain, or member of a rescue squad or ambulance crew.

If you do a rollover to a designated Roth account in the Plan

If you roll over a payment from the Plan to a Roth IRA, a special rule applies under which the amount of the payment rolled over (reduced by any after-tax amounts) will be taxed. In general, the 10% additional income tax on early distributions will not apply. However, if you take the amount rolled over out of the Roth IRA within the 5-year period that begins on January 1 of the year of the rollover, the 10% additional income tax will apply (unless an exception applies).

If you roll over the payment to a Roth IRA, later payments from the Roth IRA that are qualified distributions will not be taxed (including earnings after the rollover). A qualified distribution from a Roth IRA is a payment made after you are age 59½ (or after your death or disability, or as a qualified first-time homebuyer distribution of up to \$10,000) and after you have had a Roth IRA for at least 5 years. In applying this 5-year rule, you count from January 1 of the year for which your first contribution was made to a Roth IRA. Payments from the Roth IRA that are not qualified distributions will be taxed to the extent of earnings after the rollover, including the 10% additional income tax on early distributions (unless an exception applies). You do not have to take required minimum distributions from a Roth IRA during your lifetime. For more information, see IRS Publication 590-A, *Contributions to Individual Retirement Arrangements (IRAs)*, and IRS Publication 590-B, *Distributions from Individual Retirement Arrangements (IRAs)*.

If you are not a Plan participant

Payments after death of the participant. If you receive a distribution after the participant's death that you do not roll over, the distribution generally will be taxed in the same manner described elsewhere in this notice. However, the 10% additional income tax on early distributions does not apply, and the special rule described under the section "If you were born on or before January 1, 1936" applies only if the deceased participant was born on or before January 1, 1936.

If you are a surviving spouse. If you receive a payment from the Plan as the surviving spouse of a deceased participant, you have the same rollover options that the participant would have had, as described elsewhere in this notice. In addition, if you choose to do a rollover to an IRA, you may treat the IRA as your own or as an inherited IRA.

An IRA you treat as your own is treated like any other IRA of yours, so that payments made to you before you are age 59½ will be subject to the 10% additional income tax on early distributions (unless an exception applies) and required minimum distributions from your IRA do not have to start until after you are age 70½ (if you were born before July 1, 1949), age 72

(if you were born after June 30, 1949, and before January 1, 1951), or after age 73 (if you were born after December 31, 1950).

If you treat the IRA as an inherited IRA, payments from the IRA will not be subject to the 10% additional income tax on early distributions. However, if the participant had started taking required minimum distributions, you will have to receive required minimum distributions from the inherited IRA. If the participant had not started taking required minimum distributions from the Plan, you will not have to start receiving required minimum distributions from the inherited IRA until the year the participant would have been age 70½ (if the participant was born before July 1, 1949), age 72 (if the participant was born after June 30, 1949, and before January 1, 1951), or age 73 (if the participant was born after December 31, 1950).

If you are a surviving beneficiary other than a spouse If you receive a payment from the Plan because of the participant's death and you are a designated beneficiary other than a surviving spouse, the only rollover option you have is to do a direct rollover to an inherited IRA. Payments from the inherited IRA will not be subject to the 10% additional income tax on early distributions. You will have to receive required minimum distributions from the inherited IRA.

Payments under a QDRO. If you are the spouse or former spouse of the participant who receives a payment from the Plan under a QDRO, you generally have the same options and the same tax treatment that the participant would have (for example, you may roll over the payment to your own IRA or an eligible employer plan that will accept it). However, payments under the QDRO will not be subject to the 10% additional income tax on early distributions.

If you are a nonresident alien

If you are a nonresident alien and you do not do a direct rollover to a U.S. IRA or U.S. employer plan, instead of withholding 20%, the Plan is generally required to withhold 30% of the payment for federal income taxes. If the amount withheld exceeds the amount of tax you owe (as may happen if you do a 60-day rollover), you may request an income tax refund by filing Form 1040NR and attaching your Form 1042-S. See Form W-8BEN for claiming that you are entitled to a reduced rate of withholding under an income tax treaty. For more information, see also IRS Publication 519, U.S. Tax Guide for Aliens, and IRS Publication 515, Withholding of Tax on Nonresident Aliens, and Foreign Entities.

Other special rules

If a payment is one in a series of payments for less than 10 years, your choice whether to do a direct rollover will apply to all later payments in the series (unless you make a different choice for later payments).

If your payments for the year are less than \$200 (not including payments from a designated Roth account in the Plan), the Plan is not required to allow you to do a direct rollover and is not required to withhold federal income taxes. However, you may do a 60-day rollover.

Unless you elect otherwise, a mandatory cashout of more than \$1,000 (not including payments from a designated Roth account in the Plan) will be directly rolled over to an IRA chosen by the Plan administrator or the payor. A mandatory cashout is a payment from a plan to a participant made before age 62 (or normal retirement age, if later) and without consent, where the participant's benefit does not exceed \$5,000 (not including any amounts held under the plan as a result of a prior rollover made to the plan).

You may have special rollover rights if you recently served in the U.S. Armed Forces. For more information on special rollover rights related to the U.S. Armed Forces, see IRS Publication 3, Armed Forces' Tax Guide. You also may have special rollover rights if you were affected by a

federally declared disaster (or similar event), or if you received a distribution on account of a disaster. For more information on special rollover rights related to disaster relief, see the IRS website at www.irs.gov.
