

Mobile payments make using your healthcare reimbursement account simple!

Make faster, more secure, and contactless payments to your healthcare providers.

Convenient, secure, and contactless

Take advantage of convenient and secure payments

Make quick and easy payments using your smartphone. Eliminate the need to carry your physical health reimbursement debit card or cash, making transactions more convenient and secure.

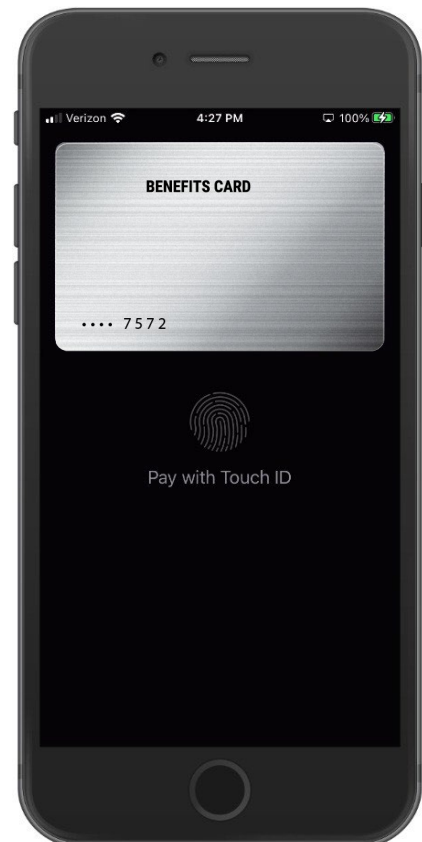

Add your benefits debit card to your mobile wallet

Whether you use Google Pay, Apple Pay, or Samsung Pay, quickly add your benefits debit card to your mobile wallet with just a few taps on your device by downloading the **BeneSys Member Reimbursement** app via your smartphone's app store. You must create a username and password to access your account.

Access your benefit debit card via mobile wallet to pay for eligible expenses

No more card fumbling! With mobile payments, you don't need to use (or even bring) your benefits debit card when you want to pay for eligible expenses. Your card will be accessible (alongside the rest of your credit or debit cards) in your mobile wallet.

We live in a mobile-first world, where nearly everyone has their device on them at all times. With mobile payments, you have the option to add your benefits debit card to your mobile wallet to easily use it to pay for an eligible expense when you are on-the-go.
