May 10, 2023

Effective June 1, your medication will be covered by the
PillarRx discount program.

Dear Member,

Your health is important to Blue Cross Blue Shield of Michigan and Blue Care Network. We want to ensure you receive safe, high-quality care that meets your needs. You recently filled prescriptions for a medication through our Drug Adherence Discount Program, *powered by Sempre Health*.

Starting June 1, 2023, your medication will be covered by the High-Cost Drug Discount Optimization Program, *powered by PillarRx*. This free program helps you save money on copay for certain medications. Your discount may be greater than, or the same as, the discount you currently receive. Or you may pay nothing.

Your medication is included in the chart below along with your new copay for each refill. **The copay will vary for members with a high-deductible health plan.**

Drug name	Copay for 30-day supply	Copay may vary depending on your prescription drug plan
Lantus	\$0	
Ozempic	\$25	
Rybelsus	\$10	
Toujeo	\$0	
Trulicity	\$25	

High-Cost Drug Discount Optimization Program Overview

How does the High-Cost Drug Discount Optimization Program work?

The discount program connects you with drug manufacturer assistance to help you save money on your copays for certain medications. Your discount may be greater than, or the same as, the discount you receive currently. You may pay nothing. This can help you afford your medication and take it as prescribed.

How do I enroll in the program?

PillarRx will send you introductory information and a representative will call to enroll you and explain how the program works, what to expect at the pharmacy and answer questions. PillarRx then sends information to your pharmacy. You don't need to do anything else.

How will this program work with out-of-pocket costs and maximums?

The amount covered by the coupon won't apply toward your out-of-pocket maximums. The amount that **you pay** will.

For example, if your prescription copay is \$15 and a coupon for \$5 is applied, the \$5 will not apply toward your out-of-pocket maximum. The \$10 you pay for the prescription will apply.

Will I continue to receive gradual discounts?

No, your discount will remain the same.

Will this change how and where I fill my prescriptions?

No, you can continue to fill your prescriptions as you currently do.

Will I continue to receive text message reminders about my prescriptions?

No, you won't receive text message reminders. However, your pharmacy may provide this service.

Your copay or coinsurance may change as medications are added or removed from this program.

If you have questions about the PillarRx program, call PillarRx at 1-636-614-3126. Or you can call the number on the back of your member ID card.

Sincerely,

Glen Perry, R.Ph.

Director, Pharmacy Services
