INDEPENDENT AUDITORS' REPORT

Plan Trustee
Oregon Printing Industry Pension Trust

Report on the Financial Statements

We have audited the accompanying financial statements of Oregon Printing Industry Pension Trust (the Plan), which comprise the statements of net assets in liquidation and of accumulated plan benefits in liquidation as of June 30, 2020 and 2019, and the related statements of changes in net assets in liquidation and in accumulated plan benefits in liquidation for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of June 30, 2020 and 2019, and the changes in financial status for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter – Plan Termination and Use of Liquidation Basis of Accounting

As further discussed in Notes 1, 3, and 4 to the financial statements, the Plan terminated effective October 26, 2010, as a result of a mass withdrawal of all participating employers. In accordance with accounting principles generally accepted in the United States of America, the Plan uses the liquidation basis of accounting to determine the amounts at which information is stated for periods after October 26, 2010. Our opinion is not modified with respect to this matter.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions as of and for the year ended June 30, 2020, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

OREGON PRINTING INDUSTRY PENSION TRUST
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2020 AND 2019

NOTE 1 DESCRIPTION OF THE PLAN

The following brief description of the Oregon Printing Industry Pension Trust (the Plan) is provided for general information only. Participants should refer to the Plan document for more complete information.

General

The Plan was established in 1962 for members of certain unions working in the graphic arts field in the state of Oregon whose employers were members of Pacific Printing Industries Association. The Plan was most recently restated and amended effective January 1, 2015. Effective October 26, 2010, the Plan terminated by a mass withdrawal of all participating employers. The Plan is a defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension Benefits

The Plan provides for monthly retirement benefits based on the sum of monthly benefits from future and past service earned through October 26, 2010. Participants receive their accrued vested benefits in the form of a lump sum payment, life annuity, or a joint and survivor annuity.

Participants are fully vested in the Plan upon attaining normal or early retirement, death, total disability, or upon the completion of five years of vesting service. Normal retirement age is the date the participant attains age 65 and either has at least five or more years of credited service or reached the fifth anniversary of Plan participation. A participant's early retirement date is the first day of the month on which the participant ceases to be an employee and has attained age 55 and is vested. Participants not fully vested on October 26, 2010, lost their benefits upon a break in service. The nonvested benefits were not vested as a result of termination because the Plan had insufficient assets to pay those benefits and they were not guaranteed by the Pension Benefit Guaranty Corporation (PBGC).

Effective July 1, 2014, notwithstanding any other provisions of the Plan, members who are not working for a former participating employer may retire at an early retirement date, normal retirement date, or postponed retirement date without ceasing work in the printing industry of the United States or Canada. In addition, any member who returns to work in the printing industry or other employment following retirement shall not have his or her retirement benefit suspended.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the liquidation basis of accounting.

Employer Withdrawal Liability Contributions

Employer withdrawal liability contributions are recognized in income based on the quarterly payment amounts due from withdrawn employers during the Plan year as calculated by an actuary and estimated collectible.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, accumulated plan benefits in liquidation, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in a variety of investments. In general, investments are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets in liquidation.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Payment of Benefits

Benefits are recorded upon distribution.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those benefits under the Plan's provisions attributable to service employees rendered through October 26, 2010, which is earlier than the valuation date as no additional benefits can be earned after that date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits payable under all future contingencies (retirement and death) are included to the extent participants are assumed to become eligible for those benefits based on service rendered through October 26, 2010.

The actuarial present value of accumulated plan benefits in liquidation is determined by the consulting actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death or retirement) between the valuation date and the expected date of payment. The actuarial assumptions are primarily based on assumptions prescribed by the PBGC.

The significant actuarial assumptions used in the valuations as of June 30, 2020 and 2019 are as follows.

Interest Rates:	2.11% for the first 20 years following the valuation date and 1.92% thereafter for 2020; 3.07% for the first 20 years following the valuation date and 3.05% thereafter for 2019.
Investment Return:	5.50% for 2020 and 2019.
Mortality:	1994 Group Annuity Mortality Basic Table projected to 2029 using scale AA for males and females for 2020 and 2019.
Retirement:	Nonretired participants who retire after their normal retirement date (generally age 65) are assumed to receive an actuarially increased benefit at retirement.

Changes to interest rates, mortality assumptions and the assumed rate of return on the market value of investments along with the assumption that nonretired members who retire after their normal retirement age (generally 65) will receive an actuarially increased benefits caused a net decrease in the actuarial present value of accumulated plan benefits by \$(2,330,875) for the year ended June 30, 2019.

Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through November 30, 2020, the date the financial statements were available to be issued.

NOTE 3 FUNDING POLICY

The Plan's funding policy is to collect withdrawal liability payments from withdrawn employers. ERISA minimum funding requirements no longer apply due to the Plan's terminated status.

NOTE 4 PLAN TERMINATION

Effective October 26, 2010, the Plan no longer had any participating employers. As a result, the Plan notified the PBGC of the termination.

The Plan will continue to be administered as it has been and to pay benefits until the Plan's assets are insufficient to pay all benefits due in a Plan year. If this occurs, the Plan must reduce benefit payments to the highest level that can be paid from the Plan's available resources. If such resources are not enough to pay benefits at the level specified by the PBGC, the Plan must apply to the PBGC for financial assistance. The PBGC will loan the Plan the amount necessary to pay benefits at the guaranteed level. Reduced benefits may be restored if the Plan's financial condition improves.

The PBGC guarantees pension benefits payable at normal retirement age and some early retirement benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. The PBGC guarantees a monthly benefit payment equal to 100% of the first \$11 of the Plan's monthly benefit accrual rate, plus 75% of the next \$33 of the accrual rate, times each year of credited service. The PBGC's maximum guarantee, therefore, is \$35.75 per month times a participant's years of credited service.

Whether all participants receive their benefits at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial level of benefits guaranteed by the PBGC.

NOTE 5 PLAN TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated August 17, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at June 30, 2020 and 2019.

Money Market Funds and Mutual Funds: Valued at the daily closing price as reported by the fund. Money Market Funds and mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

NOTE 7 EMPLOYER WITHDRAWAL LIABILITY

Effective October 26, 2010, all participating employers withdrew from the Plan. Total outstanding withdrawal liability was \$5,646,770 and \$3,653,505 at June 30, 2020 and 2019, respectively. Quarterly payments are assumed to be paid in perpetuity. Total Employer withdrawal liability contributions were \$184,393 and \$122,725 for the years ended June 30, 2020 and 2019, respectively.

One withdrawn Employer declared bankruptcy in February 2018. No material future withdrawal liability payments from this employer are expected to be collected.

A second withdrawn employer sold substantially all of its assets in December 2018. The Plan currently is engaged in litigation with the Employer and its alleged successor concerning its withdrawal liability to the Plan.
